Subject: DELANO COMMITTEES AND GROUPS

Hi Bryan,

As we spoke, we have the following committees and groups in Delano:

Delano Renegade Leadership Council

Delano Marketing Team: Established a marketing team 1 March 2008 consisting of faculty and staff. The team facilitates promotion of BC Delano through aggressive advertising & event planning (example: parent nights; local business presentations; open houses; school site visits; and registration days).

Delano Center Program Team: Established in 1 April 2008. The committee reviews program and course offerings; student services; student quality of life; and instructor resource requirements. The team makes recommendations to the Center Director and/or BC Chairs and Department Heads.

The Delano Renegade Leadership Council: Recently established team of eight student volunteers, four community members, two faculty members and four classified staff members. The committee will replace the Marketing and Program teams and provide a greater emphasis on student program, service and support needs.

ENSL Educator Community of Practice: This Community of Practice brings together ENSL Educators. The meetings are information sharing sessions for improving how we educate and train Northern Kern County ENSL/ESL/ELD/LEP students. It is our desire that this Community of Practice opens the door for better communication and understanding of the different services our participating organizations provide.

I hope this helps.

v/r

Richard
