Screenshot of Bakersfield College's Curriculum Tracking system developed in Fall 2011 as a workaround for problems in CurricUNET's approval queue process. Green buttons mean that all members of the Curriculum Committee reviewing a given part of the Course of Record (COR) have reviewed and approved that part of the COR. Yellow buttons mean that course originators need to fix a given part of the COR. Curriculum Committee members comments are emailed to course originators as the comments are entered into the system. Course originators can post replies and those replies are emailed to the appropriate Curriculum Committee member.
