# About the Scorecard

The Bakersfield College Institutional Scorecard represents a tool for both communication and dialogue about the important work going on at the college. The scorecard communicates metrics that reach into the heart of the work at the college and helps to guide data-informed decision-making. Each metric represents a barometer of our strategic initiatives work derived from our college mission. Interventions and improvements are identified and monitored by this set of metrics which represent a kind of “Vital Signs” of college work.

The work and metrics are organized into four data strands:

1. SLO/Assessment (Student Learning) (</scorecard/slo>)
2. Student Progression and Completion (Student Achievement) (</scorecard/completion>)
3. Operational Data (</scorecard/operational>)
4. Perception Data such as Surveys and CCSSE (</scorecard/perception>)

Each of these data strand intertwine and effect the work we do and student success.

The scorecard will identify STANDARDS for each metric, which we have defined as a “passing” or acceptable level. In some cases standards are externally identified, by bodies such as the Accrediting body, ACCJC. In other cases, the state average or a self-identified level of achievement will be identified as a standard of practice.

Each metric will also have a TARGET to strive towards, identified through institutional dialogue. While the metrics begin at a high level, each page features tabs that dig deeper into more specific data related to targeted interventions and improvements.
