1. On-line Video: Accessibility

Videos on the Web –Technology for People with Disabilities

Several on-line videos and podcasts describe assistive technologies and provide an overview of why some people need alternate methods to access computer information.

1. Launch Internet Explorer. Type this URL in the address bar (or Ctrl + O): <http://www.doit.wisc.edu/accessibility/video/>
 2. Choose one of the video links to watch, hear, or read the transcript. Take notes, including the title of the video or podcast you selected and general facts you learned from it.
 3. Write title and 3 video facts on the back of this sheet.
