A NOTE FROM
THE KERN COUNTY
WASTE MANAGEMENT
DEPARTMENT

This Recycling Guide is a project of the Kern County Waste Management Department. It is designed to provide Kern County residents with information on reuse and recycling options available throughout the county.

Although it is our desire to provide you with a complete resource, we acknowledge that we may have unknowingly omitted a service provider. If you know of such organization or business, please let us know. We will be pleased to include them in future publications.

This guide is for informational purposes only and should not be construed as a recommendation or endorsement by the Kern County Waste Management Department (KCWMD). This guide is not complete with respect to the products, services or institutions it lists. It is not meant to be exclusive or exclusionary in any way and does not vouch for the capabilities, trustworthiness or performance of any individual, business or institution listed in these pages.
# CURBSIDE RECYCLING PROGRAMS

**How to read the chart:**
- **X** Every week Included in Refuse Service
- **Y** Every other week Included in Refuse Service
- **O** Every other week Voluntary - Call to Order
- **S** Seasonal
- **P** On Call Pick-up
- **V** Every Week Voluntary Call to Order

CURBSIDE RECYCLING PROGRAMS

Residents in **METRO-BAKERSFIELD** have a Voluntary Curbside Recycling Program available at a LOW RATE of $4 per month. Participants will receive a blue 96 gallon recycling container in which they can place clean household recyclable materials.

**To Sign Up for Service Call**
- Unincorporated Metro Bakersfield 322-6863
- City of Bakersfield 326-3114

**Recyclables Accepted:**
- Aluminum Cans
- Cardboard
- Glass
- Magazines
- Newspaper
- Paper
- Plastic - #1 & #2
- Tin Cans

CURBSIDE RECYCLING PROGRAM - OTHER CITIES

The cities of **DELANO** and **MCFARLAND** have a Curbside Recycling Program for residential recyclable materials. This program is available to residents as a part of the regular trash service. The City of **WASCO** has a voluntary curbside service.

**CALIFORNIA CITY, MOJAVE, ROSAMOND** and **TEHACHAPI** residents with garbage service can toss residential recyclable materials into their trash containers. Recyclable materials are separated out at the Materials Recovery Facility on Dennison Road.

**CURBSIDE GREENWASTE RECYCLING PROGRAM**

**ARVIN, METRO-BAKERSFIELD, DELANO, MCFARLAND** and **WASCO** residents have a Curbside Greenwaste Recycling Program as part of their regular trash service. The City of **SHAFTER** offers a curbside program December through February as part of their regular trash service.

MORE INFO ON RECYCLABLE MATERIALS

**PAPER**
- Mixed Paper, Magazines, Junk mail, Wrapping paper
- Chipboard Boxes (cereal boxes, etc.)
- Paper Bags & Egg Cartons

**METAL**
- Aluminum Cans & Foil
- Tin/Steel/ Bimetal Cans

**PLASTIC**
- Empty rigid plastic containers coded to
- Leaves
- Trees & Brush Prunnings/Trimmings
- Grass Clipping

**GLASS & BOTTLES**
- Clear, Green, Blue & Brown Colored Glass Accepted
For residents choosing not to participate in a **CURBSIDE RECYCLING PROGRAM**, or for those where a curbside program is not available, Kern County has **COMMUNITY DROP-OFF RECYCLING** Centers. These drop-off centers are an easy way to recycle household materials. Money, from recycling, is used to fund community programs, elementary school programs, church outreach projects, scholarships and many other worthy causes.

Each Drop-off Recycling Center accepts a variety of materials for recycling. Check the center nearest you for specific recycling guidelines.

**X - Items collected at this location.**

</table>
Newspaper: Keep dry and clean. Do not mix with junk mail, magazines, cardboard, brown paper bags, plastic bags or twine.

Cardboard: Keep dry and clean. Please break cardboard boxes down to be as flat as possible. Do not mix with junk mail, magazines, newspaper, plastic bags or twine.

Glass: Rinse containers and remove lids. Separate by color (clear, brown, or blue/green). Tinted glass should be placed into the blue/green glass container.

Aluminum Beverage Containers: Rinse containers and flatten to reduce size.

Plastics: Look on the bottom of the plastic container for a number inside a triangle. This number tells what kind of plastic the container is made of. Only #1 and #2 plastic containers are recyclable. Rinse out containers. Sort containers by plastics number. Flatten containers as much as possible and remove lids. Deposit the clean container into the correct drop-off compartment. Containers which once stored motor oil are not acceptable for recycling.

Steel Cans: Rinse containers, remove labels and, if possible, flatten to reduce size.

Magazines and Junk Mail: are also accepted at many of the Community Drop-off Recycling Centers. Do not recycle any junk mail with personal information unless shredded.
BUYBACK RECYCLING PROGRAMS

Residents have the option of "selling" their residential recyclable materials to a Buy Back Center. These centers pay residents for their aluminum cans, glass and plastic items with a noted CRV stamp on the label.

There are dozens of BUY BACK RECYCLING LOCATIONS throughout the county. These centers primarily accept those items with a CRV (California Redemption Value). Some sites will accept other items (such as newspaper) but will not pay you for the materials. Remember to rinse out your bottles and cans before turning them in for redemption.

WHAT IS CRV?

Beverage containers labeled CRV (California Refund Value) can be redeemed at Certified Redemption Centers. The CRV deposit is 5¢ per container under 24 oz. and 10¢ per container 24 oz. or more.

Most recycling centers pay by the pound if you bring in a large load, so be sure to have only CRV containers to get the highest possible refund. You can request to be paid on a per-container basis. If you bring in loads of fewer than 50 per material type ask the recycler to pay by count instead of by weight.

Call or visit the website for more information about CRV Redemption Centers. www.bottlesandcans.com 1-800-RECYCLE

WHAT YOU NEED TO KNOW ABOUT
BULKY WASTE/LARGE ITEM COLLECTION

APPLIANCES/WHITE GOODS

Large household appliances, also called "whitegoods" are considered bulky waste. Included in this recycling category are stoves, refrigerators, freezers, washers, dryers, and water heaters. **WHITE GOODS can be recycled, FREE OF CHARGE, at all Kern County landfills and transfer stations. Appliances must be empty.**

However, before taking a working appliance to the landfill, contact your local thrift shop or used appliance dealer. Some appliance dealers may purchase and/or pick up appliances - in good condition. If you wish to donate the item, some non-profit organizations may have a use for working appliances and will pick them up for you. Call the non-profit organization for more information.

For non-working appliances, there is an alternative to taking the appliance to the landfill. Some scrap metal dealers will buy appliances for the value of the metal. However, MANY do not take refrigerators, freezers, water coolers, or air conditioning units because these appliances contain freon, an ozone-depleting gas.

Kern County sponsors Bulky Waste Collection events throughout the County. Check the website www.co.kern.ca.us/wmd, or call the Kern County Waste Management Department at (661) 862-8900 for the date and location of the next event in your area.

METRO-BAKERSFIELD BULKY WASTE/LARGE ITEM CURBSIDE COLLECTION

Residents in the Metro Bakersfield area can have their bulky items, including appliances, sofas, chairs and other large furniture pieces picked up at the curb - FREE OF CHARGE. To schedule your curbside pick-up call:

- **City of Bakersfield - Solid Waste** .......................................................... (661) 326-3114
- **Unincorporated Metro Bakersfield** ...................................................... (661) 322-6863
- **Valley Garbage Service Area** ............................................................... (661) 323-8154

OTHER CITIES IN KERN COUNTY

Some cities are offering their residents bulky item pickup at the curb. See page 1 of this guide for contact information for your city.

For more recycling alternatives, see the A - Z Section page 19.
AUTOMOTIVE PRODUCTS

In our automobile-based culture, we deal with many hazardous substances such as motor oil, antifreeze, brake fluid, windshield wiper fluid, transmission fluid and batteries. In addition to these items, we also have a variety of specialized cleaning products for the tires, dashboard, and engine compartment. These materials can endanger our health and environment if improperly disposed.

The good news is that automotive products are becoming easier to dispose of properly. An increasing number of stores, service stations, recycling centers and residential recycling programs are accepting these materials.

Motor Oil gets dirty with use, but once cleaned or re-refined; it can be used again and again with the same effectiveness as virgin oil. Used motor oil must never be mixed with any other liquid. Used motor oil is accepted at many service stations, auto parts stores, recycling centers and at most Kern County landfills. Some local jurisdictions even have curbside used oil collection programs. Check out the Oil Recycling Website at www.calrecycle.ca.gov/usedoil/centers for site locations and more information.

Oil filters are also recyclable at the oil collection sites maintained by the Kern County Waste Management Department. Check out the Oil Recycling Website at www.calrecycle.ca.gov/usedoil/centers for site locations and more information.

Antifreeze is toxic, and is deadly to pets and children if accidentally ingested. Handle this liquid with care. In Metro Bakersfield it can be brought to the Kern County Special Waste Facility at 4951 Standard St., in East Kern County at 17035 Finnin St. at the Mojave Airport, or at 3301 W. Bowman Rd. at the Ridgecrest Landfill. For days and hours of operation call (661) 862-8922.

Batteries - Automotive/Truck/Tractor/Equipment may be sold to scrap metal dealers. They are often accepted at automotive parts stores and service centers as well.

Tires, because of their physical properties, present health and handling challenges to disposal facility operators. Whole tires are banned from landfills in California. Many tire dealers will accept small quantities for a nominal fee. Landfills will also accept tires separated from general trash for a per-tire charge or, if applicable, at a bulk rate.

For more recycling alternatives, see the A - Z Section page 19.
Construction or demolition material is non-hazardous building materials or debris (including packaging of same) resulting from the construction, remodeling, repair or demolition of homes, structures, buildings, garages etc.

Examples of construction or demolition material are:
- Asphalt
- Brick
- Cabinetry
- Concrete
- Counter coverings
- Doors and door frames
- Drywall/sheetrock
- Fencing materials
- Wood/lumber
- Metal
- Packaging for construction material
- Paneling
- Plumbing fixtures
- Roofing

Construction and demolition materials are accepted at all Kern County disposal sites for recycling, reuse, or disposal. When these materials are brought to disposal sites, a fee will be charged. A FEE DISCOUNT may be granted when materials such as lumber, concrete or metal loads are SEPARATED and unloaded in their designated recycling areas. Other recycling and reuse alternative options for some construction/demolition materials are:

Architectural Salvage – doors, windows, decorative moldings, railings, brick, light & plumbing fixtures can be sold or commissioned to an Architectural Salvage House. Look in the Yellow Pages under "Architectural Salvage".

Antique Dealers – certain decorative elements (moldings, medallions), & light fixtures can be donated, commissioned or sold to a local Antique Dealer.

California Materials Exchange "CalMAX" – is a free service designed to help businesses find markets for non-hazardous materials - traditionally discarded. CalMAX helps businesses, industries, and institutions save resources and money.

Habitat for Humanity – New, unused home construction materials can be donated to the Kern County chapter of Habitat for Humanity.

Construction & Demolition Recyclers
Check out the A-Z section of this Recycling Guide by material type or in the Yellow Pages of this directory.
**ELECTRONIC WASTE (E-WASTE)**

**Computer Monitors and Televisions**
Current state and federal regulations mandate that cathode ray tubes (CRTs) found in computer monitors and televisions cannot be disposed of in landfills. However, there are several REUSE & RECYCLING options available to Kern County residents:

- Televisions and computers monitors, still in working condition, can be donated to local nonprofit organizations to be reused.
- Non-working computer monitors and televisions are accepted at all Kern County Disposal sites for recycling at NO CHARGE.
- Non-working computer monitors and televisions are also accepted, for recycling, at thrift shops and non-profit organizations such as Goodwill Industries, Salvation Army, Bakersfield Association of Retarded Citizens (BARC) and others that have been authorized by the state. (see A-Z Section – Electronics)

**Other Electronics**
The method to recycle other electronic waste such as central processing units (CPUs), computer peripherals, stereos, VCRs, copiers, and other circuit board containing devices is constantly evolving. Please see the listing under “Electronics” in the A-Z Section of this guide for re-use/recycling locations. For the latest details on local electronics handling options, check the Kern County Waste Management website (www.co.kern.ca.us/wmd)

**Computer Printer / Copier / Fax Machine Supplies**
Did you know that when your toner cartridge or inkjet cartridge is empty, it can be refilled for less money than buying a new one? There are many companies that recycle cartridges, either paying outright for the cartridge or offering a discount on the purchase of a refilled one. For a local source, see page 27 under Toner Cartridges, or check the Yellow Pages under Computer Supplies & Parts.

For other Cartridge Reuse and Recycling Programs visit www.calrecycle.ca.gov/WPIE/Electronics/InkAndToner.htm

**CLOSE THE LOOP -** Help support recycling efforts by buying recycled toner and inkjet cartridges. Recycled/ remanufactured cartridges often need to meet the same standards as new cartridges.

**Businesses**
Businesses with large volumes of Covered Electronic Devices (CRT’s) which include televisions and computer monitors can visit the Electronic Product Management website at www.calrecycle.ca.gov/electronics/collection/recyclersearch.aspx for a current list of approved collectors and recyclers in Kern County. (See A-Z Section - Electronics)

Electronic Waste can be recycled at Kern County disposal sites. There is NO CHARGE for Covered Electronic Wastes (televisions, computer monitors and dvd players with screens). However, a FEE IS CHARGED for other electronic waste such as computer peripherals, copiers, CPU’s, stereos, VCR’s, and other electronic devices.

For more recycling alternatives, see the A-Z Section, page 19

![E-WASTE](image)
We all receive unsolicited mail. Each time you enter a contest, make a donation, take a survey, buy something on credit or with a check, order products by mail or send in a subscription, there’s a good chance your name and address will be added to a mailing list. These lists are valuable commodities regularly sold or traded. 

Below are steps you can take to reduce junk mail. Be patient - it takes three to six months before you notice a reduction in your junk mail. In the meantime, remember to recycle junk mail you receive.

1.) **Call mail-order catalog companies** - Most catalogs provide an 800 telephone number for placing an order; call this number and ask to be taken off their mailing list.

2.) **Contact specific organizations or businesses** - If you receive unwanted flyers or mail, call the customer service department of the organization or business responsible and request that your name be removed from their mailing list.

3.) **Return junk mail** - Envelopes stamped "address correction requested" or "return postage guaranteed" can be returned unopened to the sender by writing "refused, return to sender" on the envelope. **DO NOT** write this on mail without that special notation; the post office will not return it to the sender.

4.) **Get your name off national mailing lists and off the lists of mailing list brokers** - Write to the addresses below and ask to be placed on a "suppress" file. Include a list of your name and address in all the different ways it appears on your junk mail. The Mail Preference Service places your name in the suppress file for five years. The Direct Marketing Association sends this list to its business subscribers four times a year. The address for "Telephone Preference Service" will remove your name from many telemarketers’ lists.

GREEN WASTE RECYCLING IN KERN COUNTY

METRO BAKERSFIELD
 Residents: Bakersfield and the adjacent unincorporated area, have curbside green waste pickup using green-colored, green waste containers. The program accepts grass clippings, leaves, tree branches and bush branches less than 1.5 inches in diameter and 12" in length. No palm or yucca is accepted in the curbside program. Creosote-treated wood IS NOT accepted.

Large garden clean-ups and landscape/garden professionals: The City of Bakersfield operates a facility to handle large amounts of green waste from landscape/garden professionals or from large residential garden clean-ups. You can dispose of palm and yucca trimmings here. Creosote-treated wood IS NOT accepted.

The City of Bakersfield Green Waste Facility is located one mile south of Hwy. 58 on Mount Vernon Avenue in Bakersfield. Open Daily 7 a.m. to 4 p.m. Phone: (661) 835-8873

OUTLYING AREAS OF KERN
 Grass clippings, tree branches, mulberry tree branches and construction lumber can be recycled at various landfills throughout the County. Details follow:

• The Bena Landfill accepts segregated grass clippings, leaves and manure in a separate area for composting. Bena also accepts tree trimmings and construction lumber.

• The Shafter-Wasco Landfill accepts segregated grass clippings, leaves and manure in a separate area for composting. Shafter-Wasco also accepts tree trimmings and construction lumber.

• The Taft Landfill accepts tree trimmings and construction lumber.

• The Lebec Transfer Station accepts segregated grass clippings, leaves and manure in a separate area for composting. The Lebec Transfer Station also accepts tree trimmings and construction lumber.

• The Buttonwillow Transfer Station accepts tree trimmings and construction lumber.

• The City of Wasco Green and Wood Waste Facility accepts tree trimmings, but will not accept mulberry tree branches.

• The Ridgecrest and Tehachapi Landfills accept tree trimmings and construction lumber for grinding and reuse.

• The Kern Valley Transfer Station accepts tree trimmings and construction lumber.

• The McFarland-Delano Transfer Station accepts segregated grass clippings, leaves and manure in a separate area for composting. The McFarland-Delano Transfer Station also accepts tree trimmings and construction lumber.
About 30% of what comes into Kern County landfills is yard waste and grass clippings. Many people treat their lawn like a "crop". They (over) water and (over) fertilize their lawns to encourage excessive growth. The harvested "crop" (grass clippings) is bagged as trash and transported to a landfill.

Kern County lawns can generate 300 to 400 pounds of grass clippings per 1000 square feet annually, depending on turf variety, environmental conditions, and lawn care practices. Doing the math, this means as much as eight tons of grass clippings are generated per acre each year!

A home gardener can use grass clippings and yard waste to improve the quality of their lawn and garden soil. Three common methods are grass-cycling, composting and mulching.

- **Grass-cycling** is the natural recycling of grass by leaving clippings on the lawn when mowing. Grass clippings will quickly decompose, returning valuable nutrients to the soil.
- **Composting**, nature’s own way of recycling, is the controlled decomposition of organic material such as leaves, twigs, grass clippings, and vegetable food waste.
- **Mulch** consists of dead leaves, twigs, fallen branches and other plant debris which accumulate on the earth’s surface. Mulch is "chunkier" than compost. Mulch conserves moisture, and feeds plants, earth worms, microbes and other beneficial soil life by composting at the moist earth surface.

For detailed information on how to manage green waste, you can contact the following organizations:

**University of California at Davis**
**Cooperative Extension Kern County**

DON'T TOSS IT!
Bring your household hazardous waste to the...

KERN COUNTY SPECIAL WASTE FACILITY

Residential Waste Accepted
- Automotive Products
- Batteries (auto & household)
- Expired Medications
- Fertilizers
- Fluorescent Light Bulbs
- Home Generated Sharps
- Household Cleaning Products
- Mercury Thermometers
- Paint & Paint Products
- Pesticides & Weed Killers
- Photo Chemicals
- Pool & Spa Chemicals

Residential Waste Only. No Business Waste. No Mixing. Make sure containers are not leaking and are properly labeled.

THREE LOCATIONS TO BETTER SERVE YOU

BAKERSFIELD
4951 Standard Street
(off Buck Owens Blvd. & Gilmore Ave.)
Thursday, Friday & Saturday
8am-4pm

MOJAVE
17035 Finnin Street
(at the Mojave Airport)
1st Saturday of Every Month
9am-12pm

RIDGECREST
3301 West Bowman Road
(at the Ridgecrest Landfill)
2nd Saturday of Every Month
10am-1pm

Transport Guidelines:
Transport no more than 15 gallons or 125 lbs. of waste per trip.

For more information call (661) 862-8922 or 800-552-KERN, option 6
A Guide to

SMALL BUSINESS HAZARDOUS WASTE DISPOSAL

THREE LOCATIONS
TO BETTER SERVE YOUR BUSINESS

Bakersfield  Mojave  Ridgecrest

Appointment Required for Disposal
(661) 862-8922

Business Waste Accepted

- Batteries
- Corrosives
- Flammables
- Fluorescent Bulbs
- Mercury Containing Devices
- Oxidizers
- Paints
- Poisons

If your business generates less than 220 lbs. of hazardous waste per month please call for an appointment.

This program is sponsored by the Kern County Waste Management Department & the Department of Resources Recycling and Recovery.

For more information call (661) 862-8922 or 800-552-KERN, option 6
BULKY WASTE COLLECTION
Large or bulky waste consists of household items too large to fit inside a trash container such as sofas, chairs, tables, desks, beds, mattresses, appliances, and lawn furniture. Tires, construction, demolition and remodeling materials, household hazardous waste and greenwaste are NOT considered bulky waste items and are NOT part of these collection programs.

Residents in the Metro Bakersfield area can have their bulky waste items, including appliances, picked-up at the curb - FREE OF CHARGE. To schedule your CURBSIDE pick-up call:

- City of Bakersfield - Solid Waste: (661) 326-3114
- Unincorporated Metro Bakersfield: (661) 322-6863
- Valley Garbage Service Area: (661) 323-8154

The Kern County Waste Management Department in collaboration with the Kern Refuse Haulers also sponsor bulky waste collection events in the Metro-Bakersfield area, twice a year, in the Spring and Fall. Additionally, many Kern County cities such as Delano, McFarland, Wasco, Ridgecrest, as well as the Community Services Districts in Rosamond and Golden Hills sponsor single day bulky waste collection events. Check the website www.co.kern.ca.us/wmd or call (661) 862-8900 for more information.

TOXIC ROUNDUPS
Household Hazardous Waste One-Day Collection Events
One-day collection events allow residents in the outlying areas of Kern County to drop off household hazardous waste at a location in their community. These “Toxic Roundup” events are held periodically throughout the year in the Ridgecrest, Kern Valley, Tehachapi, and Frazier Park/Lebec communities. Check the Kern County Waste Management website (www.co.kern.ca.us/wmd) or call (661)862-8922 for locations, dates and times.

CHRISTMAS TREE RECYCLING
Christmas Tree Recycling is a cooperative effort between the Kern County Waste Management Department, municipalities and community groups to recycle trees. Check the website www.co.kern.ca.us/wmd for drop-off locations and tree pick up services.

TELEPHONE BOOK RECYCLING
The Telephone Book Recycling Program is a cooperative effort between phone book companies and the Department to collect used phone books for recycling. Call 661-862-8900 for more information.
The A-Z Recycling Guide provides information on ways local residents can donate, sell, purchase, and recycle used products and materials. Our goal is to decrease the amount of waste sent to local landfills. California Assembly Bill 939 requires local cities and counties to reduce the amount of waste going to local landfills. We all must do our part!

The guide focuses on "re-using" materials and recycling materials. Reuse means the repeated use of a product or material in its original form. Recycle means to break the material down, to its original form, and make it into entirely new product. Reuse and Recycling are both important because both save natural resources and reduce the amount of waste sent to landfills.

DID WE MISS YOUR BUSINESS OR DO YOU HAVE OTHER REUSE/REPAIR/RECYCLE INFORMATION FOR FUTURE DIRECTORIES?

Please feel free to share suggestions or information regarding this directory with us. If you would like to add your business to future directories, please call, fax, email or mail the following: name of business, street address, email address, phone number, contact name, and any important notes about your business to:

HOW TO USE THIS DIRECTORY

Most of us practice reuse and recycling in our daily lives; however, there are ways to improve. Businesses in this directory accept donations, sell or buy used products, and recycle materials. Significant efforts have been made to provide complete, accurate, and up-to-date information. However, inaccuracies may exist due to changes involving individual business operations. We suggest you contact the business of interest to get the most current information about their operation hours.

This guide is for informational purposes only and should not be construed as a recommendation or endorsement by the Kern County Waste Management Department (KCWMD). This guide is not complete with respect to the products, services or institutions it lists. It is not meant to be exclusive or exclusionary in any way and does not vouch for the capabilities, trustworthiness or performance of any individual, business or institution listed in these pages.

Kern County does not endorse the businesses listed in this publication; they are simply listed as a reference to promote reuse, repair, and recycling.

Salvation Army Stores  
(6 stores in Kern County)
DID YOU KNOW?
The average aluminum can contains more than 50% post-consumer recycled content. It takes 90% less energy to recycle one aluminum can than to make one.

THE KERN COUNTY/LANCASTER RECYCLING MARKET DEVELOPMENT ZONE

Grow Your Recycling-Based Business!

If your company manufactures new products from recycled material or processes recyclables to increase market value, the Recycling Market Development Zone (RMDZ) program may benefit you. The program can help whether you are an existing business, a start-up business or a company wanting to relocate.

The RMDZ program helps California businesses cut costs and increase profits. The RMDZ program is a partnership of local governments and the California Department of Resources, Recycling, and Recovery, created to provide incentives to businesses using secondary materials from the waste stream as feedstock for their manufacturing processes.

Services and Incentives Offered:
- Low interest loans
- Sales tax credits
- Job training
- Product marketing
- Permit streamlining
- Market Research
- Technical assistance

For further information regarding the RMDZ program, and how it can help your business, contact:

RMDZ Administrator for Kern County and the City of Lancaster at the Kern County Waste Management Department:
2700 M Street, Ste. 500
Bakersfield, CA 93301
Phone: (661) 862-8900
Fax: (661) 862-8901

The RMDZ program combines recycling with economic development to fuel new businesses, expand existing ones, and create jobs.

Kern County RMDZ Business

This guide is made from recycled materials.
Cover: 30% post-consumer waste. Inside: 100% post-consumer waste.
There are more than 3,280 miles of roads in unincorporated Kern County. These roads meander through the countryside and connect residents to places beyond their front door.

Sadly, some of the roadways have fallen victim to flyaway trash and illegally dumped garbage. These roads need your help.

Take pride in the place we call home; join the Keep Kern Roads Clean project.

When you join, you promise to clean up a two-mile stretch of roadway at least four times a year. Encourage friends, family, and co-workers to help. The effort will make a visible difference in the way our county looks, and a meaningful difference in the hearts of those who volunteer.
