## How it works

The joint transfer program from the California Community Colleges and the California State Universities makes it easier for students like you to transfer between the two school systems. For the first time in California history, community college students who complete an ADT are **guaranteed admission** to the California State University (CSU) system. With this new degree, you have the opportunity to complete two degrees with only 120 units if you apply and are admitted into a similar degree program.

Through the program, students who complete an ADT are given a special GPA advantage when applying to CSU impacted campuses or majors.

The best part of the deal? Students with an ADT enter the CSU system with junior standing. Students who are admitted to a program that has been deemed similar will need only 60 more semester units (or 90 quarter units) to complete a bachelor's degree.
