

Air Conditioning and Refrigeration

Certificate

Air Conditioning /
Heating / Refrigeration
Certificate of
Completion

We offer basic training in the principles of refrigeration and air conditioning as they apply to domestic and commercial systems. Repair and maintenance of major systems components and controls is covered. A Certificate of Completion can be earned upon completion of these two courses.

In this program, you can receive a "Certificate of Completion" when you successfully complete the required certificate courses. Only the academic courses that are part of the certificate are required. A grade of "C" or better in each course is required in order for the course to count toward the certificate requirements.

Bakersfield College reserves the right to modify its programs, tuition and fees, admission and graduation requirements, schedules, and other policies, procedures, and regulations without notice. Students are encouraged to verify any program changes with the areas/ departments listed in the catalog.

Units required for Certificate: 6

Air Conditioning and Refrigeration Certificate of Completion Required Courses

Course No.	Title	Units
